Subject: RAT testing

To: All NOK, POA & Families

Hi to All NOK, POA & Families,

Sending you notification re RAT testing.

I have spoken with the PHU, CEO and DON regarding RAT testing.

You will no longer 😊 be required to attend to a mandatory RAT test prior to coming to visit your loved ones. However, if you have flu like/COVID symptoms we please request that you refrain from visiting to help reduce the risk or transmission of any ARI (Acute Respiratory Infection). As this flu season it is being reported to have spiked this year already in Australia, please be vigilant and remain at home if you have any symptoms and take care of yourselves.

If you have a family member that tests positive to COVID or has the flu you are still able to visit but it would be preferred if you attend to a test prior to coming to visit. For further safety measures for your loved ones if a close contact has COVID you may choose to stay at home rather than visit. This is to help protect our residents and workers.

If you have any questions or concerns, please feel free to come and speak with me.

From

Trish

IPC Lead
