Re: COVID update

To Residents, POA, NOK and Families

Unfortunately, we had a resident test positive late last night (30/04/2026).

At present the case is contained to the ground floor.

As a result of this we will be placing all staff back into NP95 masks.

We will be asking all visitors to also wear a mask while visiting the facility. If you have any cold or flu symptoms please do not visit.

We will update if there are any changes. Thank you for your patience and understanding during this time. If you have any ongoing concerns or need further assistance, please do not hesitate to contact CEO Sue Wray or DON Mandy Lee via phone, email or in person.

Kind Regards
Michelle Parry-Hill IPC
