Re: COVID update

To Residents, POA, NOK and Families

As of this afternoon 04/05/2026, we have a total of 7 residents and 4 staff that have tested positive for COVID. At present these cases are confined to Glenelg/Mitchell (ground floor). Residents are being encouraged to isolate in their rooms.

All staff are in NP95 masks and are testing prior to each shift. All residents will be tested again Wednesday 6/05/2026 and I will inform all NOK, POA and families of any further cases.

We will be asking all visitors to also wear a mask while visiting the facility. If you would like to take a COVID test, they are available from the front foyer. If you have any cold or flu symptoms please do not visit.

We will update if there are any changes. Thank you for your patience and understanding during this time. If you have any ongoing concerns or need further assistance, please do not hesitate to contact CEO Sue Wray or DON Mandy Lee via phone, email or in person.

Kind Regards

Michelle Parry-Hill IPC
