

We are writing to update regarding our current COVID positive cases.

As of today Friday 14<sup>th</sup> August 2026, we have 2 residents and 4 staff that have tested positive for COVID 19. Both of the residents in question reside in the Henty wing. The affected residents are currently isolating, and our IPC team along with the nursing/care staff continue to reinforce infection prevention measures to ensure the ongoing health and safety of all residents, staff, and visitors.

Monitoring: Clinical staff are closely monitoring the health of all residents for any potential symptoms. Individual Care: The affected resident is receiving dedicated care and support, Infection Control: Enhanced cleaning schedules, personal protective equipment (PPE) requirements are all in place.

Visitation: All residents will continue to have visiting rights from their family and friends. We request when visiting in the upper floor Wannon & Henty that you wear a NP95 mask to protect yourself and when on the lower floors Glenelg & Mitchell that you wear a surgical mask (Blue).

If you are feeling unwell or exhibiting any respiratory symptoms or have recently been exposed to a known positive case, we ask that you please refrain from visiting. If you have symptoms and still wish to have contact with a resident, please feel free to contact the facility and will set up a phone call or video call. If you have any questions, please feel free to contact the facility and speak with myself or Trish McKenzie.

Kind regards

Michelle Parry-Hill IPC
